PRODUCT DESCRIPTION

The Puma 20 gives an outstanding driving experience both in and outdoors. With the option of front or rear wheel drive, it's easy to customise the electronics of this self-drive wheelchair. Equipped with rubber shock absorbers, the driver can enjoy a smooth and stable ride - especially with the addition of comfortable seating. This electric wheelchair boasts a higher top speed and a larger range all thanks to its long-lasting battery.

The Puma 20 boasts strong motors for higher torque and excellent manoeuvrability. The compact design of this electric wheelchair also makes it incredibly convenient to use around the home. The Puma 20 also comes with the option to 'upgrade' the seat; the driver can adapt the chair to suit their needs and tailor to their comfort. Combine the Sedeo Lite seat frame with the individual's choice of luxuriously comfy Sedeo seat cushion, backrest, armrests, and legrests for an incredible driving experience. There's also the option of a 25° seat tilt adjustment and lights for comfort and safety.

Key Features:

- Great for indoor and outdoor usage
- Rubber shock absorbers for a smoother ride
- High torque, top speed, and larger range
- Can 'upgrade' the seat for extra comfort
