

CLASSIC DISPOSABLE BED PROTECTORS

These Bed Pads have been designed to an extremely high standard of quality. This product contains Virgin Fluff Pulp, a material purpose-built to retain many times its own weight in liquid, providing the user with complete peace of mind. Featuring a blue polyethylene waterproof backing that shields the bed from any urinary leaks for added protection. These pads also have a diamond-shaped wicking which maximises absorbency; by spreading the liquid across the pad.

Available in a range of sizes and absorbency levels.

PRODUCT DESCRIPTION

These high quality disposable bed pads use Virgin Fluff Pulp, a material renowned for its ability to absorb and hold vast amounts of liquid. These bed pads have a blue polyethylene waterproof backing, which will prevent any urinary leakages from going through to the mattress itself. These pads also feature diamond-shaped wicking, which maximises absorbency by spreading the liquid across the pad.
